Passive Acoustic Tunable Structure Based on Single Negative Metamaterials

N. R. Mahesh, Prita Nair

Department of Physics, SSN College of Engineering, Chennai – 603110, India. maheshnr@ssn.edu.in

In equation (3) (page 828), a wrong sign occurred under the square root. Instead of $\sqrt{-\alpha - i\beta}$, it should be $\sqrt{-\alpha + i\beta}$ so equation (3) should read

$$k = \sqrt{(-\alpha + i\beta)} \omega \sqrt{\rho / (\alpha^2 + \beta^2)}. \quad (3)$$

We kindly ask our readers to take note of this.
